Career Object

I am a passionate and results-driven software developer specializing in web application development using ASP.NET Core and modern technologies. Skilled in designing scalable architectures, developing RESTful APIs, and implementing cloud-based solutions. I actively stay current with emerging software trends and best practices to enhance my technical expertise. Focused on building efficient, secure, and maintainable web systems, with a strong ambition to grow into a Software Architect role specializing in microservices and distributed systems, contributing to innovative and high-impact projects.

Skills

- Language:
 - C#, React, C.
- Framework:
 - Asp.net Core MVC
- ORM:
 - Entity Framework Core
- Database:
 - SQL Server, MySQL
 - SQL, Store Procedure
- Version Control:
 - Git
- Frontend:
 - Html, CSS, Bootstrap, jQuery
- Project Management:
 - GitHub, GitLab, Trello, Scrum
- Cloud and Container:
 - AWS (EC2, S3)
 - Docker
- Others:
 - OOP
 - Design Pattern
 - Git-flow
 - Dependency Injection
 - RDLC

Work Experience

Singularity Ltd.

138/1 Tejgaon I/A, Dhaka-1208

Software Developer .Net

Project: QAD (BAT Bangladesh)

Technology: ASP.Net core MVC, MSSQL, Oracle

(Start 05-Dec-2021- Running)

- Research and development
- Code Refactoring
- Multiple Data input
- Graph report
- Frontend and Backend
- Collaborate with Team Member

Singularity Ltd.

Baridhara DOHS, Dhaka1206

Intern software Developer .Net

(Start: 05-Sep-2021 05-Dec-2021)

Project: QAD (BAT Bangladesh)

Technology: ASP.Net core MVC, Oracle, RDLC

- RDLC
- Data Export to Excel
- Theme Integration
- Column Freezing
- Print Page/Pdf Page
- Collaborate with Team Member

Projects

❖ AURA QAD (BAT Bangladesh)

Version: V.01, V.02, V.03.

The primary objective of **AURA** is to enhance decision-making and strategic planning within manufacturing processes by providing real-time insights and comprehensive data analysis. By integrating quality control and operational efficiency features, AURA supports BAT in maintaining high standards of quality and productivity. This system facilitates a streamlined workflow from data input to analysis and reporting, ensuring that all aspects of the manufacturing process are monitored and optimized effectively.

Responsibilities: Researched, developed, and deployed innovative ASP.NET Core web applications, supporting experimental and data-driven R&D projects.

Technology: ASP.Net core MVC, MSSQL, Oracle, JavaScript, jQuery, Ajax, Chartjs.

❖ HBL Heidelberg Email & SMS System

The main objective of undertaking this particular project is to renew the system and enhance the feature as per business requirement. To give a brief of the system, it captures email sent with a phone number of SMS destination and converts the email body to a SMS text.

Responsibilities: Developed and optimized scalable web applications using ASP.NET Core and SQL Server. Contributed to R&D projects through technology research, API integration, and cloud deployment.

Technology: ASP.Net core MVC, MSSQL Server, JavaScript, jQuery.

❖ Online Job Portal

This is a Job Portal project where a user can create user profile also a user can find and apply the job of his choice and a company can create job post. User can see Post and apply this job.

Technology: ASP.Net core MVC, MSSQL Server, JavaScript, jQuery.

❖ Online Digital Wallet

This is a one kind of portfolio project where a user can create profile, add people, search and contact with message, create post, and generate visiting card.

Technology: ASP.Net core MVC, MSSQL Server, Signal IR, JavaScript, jQuery.

❖ Ticket Management System

This is a Ticket management system project where a user can cut the ticket of his choice.

Technology: ASP.Net core MVC, MSSQL Server.

Education

B.Sc. in Software Engineering

January 2021

Daffodil International University

Department: Software Engineering

Higher Secondary School Certificate

June 2015

Badsha Mia Ideal High School and College

GPA: 4.00 / 5.00

Group: Science

Secondary School Certificate

February 2013

Badsha Mia Ideal High School and College

GPA: 4.75 / 5.00

Group: Science
